Do you have a gîte or B&B in the Charente-Maritime?

Tell The World!

www.Charente-Maritime-Info.com is a bilingual English/ French website, which acts as a showcase for the Charente-Maritime.

We can help you to attract English and French customers, with our large section devoted to gîtes and B&B. Advertising with us means that you have an animated listing in the section of your choice. When you click on this listing, it opens up your website. This gives you an attractive way of advertising your business in two languages...at just 10€ exc. VAT /month for 1 year.

If you do not yet have a site, or want to improve your site, we create quality websites at a very reasonable price: just 100€ exc. VAT for the site and 49.95€ exc. VAT for the translation. Photos and graphics of your choice. Option available of your very own on-line reservation calendar: 49.94€ exc. Vat per year.

Once a member of www.Charente-Maritime-Info.com you can contribute articles about your gîte, things to do in the area, excursions you organize etc... Free of charge. Each article will carry a link to your website & contact details: thus you can create more advertising for your business free of charge.

We are a professional and friendly network, not just based in cyberspace but with a network of local agents whom you can meet whenever you choose. Why not give us a ring or send an email to find out more?
